

# 2PLUS1 Layout

This is our current layout for a **2PLUS1** on a typical 9-1 longboard, shown with a standard 10.50" [266mm] center box. This should be considered a starting point for your own designs. The side fins could be moved further forward or back as the length changes. Side fin placement is further forward than normal as that has been the trend lately. Cant angle - 4°, or as needed.

We use a **G Square** for our fin layouts, so the fin base width is the standard 4.50" used on the square.
